

Premium Teeth whitening Kit

Art no: 1215xx

Whiter Teeth – 14 days Complete System

The Premium kit contains the following items:

- 2 x 10 ml Syringes with our BeconfiDent 32% Sodium + Dual boost Bicarbonate Gel,
- 1 x 15 ml Tooth Gloss for post whitening teeth protection
- 3 trays (one extra)
- Instruction sheet and a shade guide.
- App Download

How it works

DUAL BURSTS OF ACTIVITY: Within the first few minutes of application, the Dual Boost gel first employs patented detergent technology (derived from coconuts) that lifts stains off of teeth rapidly, without pain and without damage to teeth. The detergent technology creates negatively charged ionic foaming bubbles that work via ionic attraction to lift stain molecules away from teeth and also reduce teeth sensitivity associated with typical bleaching gels that dentists use. The product also has special sodium bicarbonate whiteners, solvents and wetting agents that penetrate rapidly into teeth, and creates a second wave of whitening activity that begins to work after 8 minutes. The end user effectively receives two boosts of whitening activity, each time the gel is applied and this makes the product very efficient.

10 Unique Competitive advantages

- Unique Dual Boost technology for a safe process and efficient result
- Uses 2 different mechanisms to whiten teeth – two bursts of whitening in one application
- Fast Dual Whitening Activity -> 2-3 Shades in 30 minutes up to 4-5 (2 applications x 15 minutes each)
- Good Gel formulation with proven clinical results, supported by Beconfident intelligent App for best instructions. 
- One extra mouth tray, which allows the user to shape two perfect individually, fitted mouth trays for best efficiency of the gel and to whiten all the teeth.
- Prevents teeth sensitivity
- Made with eco healthy safe ingredients derived from Coconuts
- Whitening treatments last longer because stains are actually removed
- Non-Abrasive. Does not scratch teeth enamel and works safely for all users.
- Delicious flavor

Ingredients

Dual-Boost Gel:

Glycerin, Sodium Bicarbonate, Sodium Coco-Sulfate, Mentha Piperita Extract, Xylitol, Chondrus Crispus, Sorbitol, Aloe Leaf Juice, Pomegranate Seed Extract, Chamomile Flower Extract.

Tooth Gloss:

Aqua, Poloxamer 407, Alcohol, Carbopol, Sucralose, Sodium Saccharin, L-Menthol, Sodium Benzoate, Aroma.

Frequent Asked Questions and answers

What is the difference between Start Kit and Premium Kit?

First of all, the Premium Kit contains 20ml teeth whitening gel rather than 10ml that the Start Kit has. It also contains 15ml Tooth Gloss for post whitening protection and shine. The Dual Boost Gel is also proven more effective as it contains both Sodium Bicarbonate and Sodium Coco-Sulfate, which gives this dual burst of activity.
